SELF CRITIQUE

IMPROVE

Find more attributes for the 4 incomplete user stories

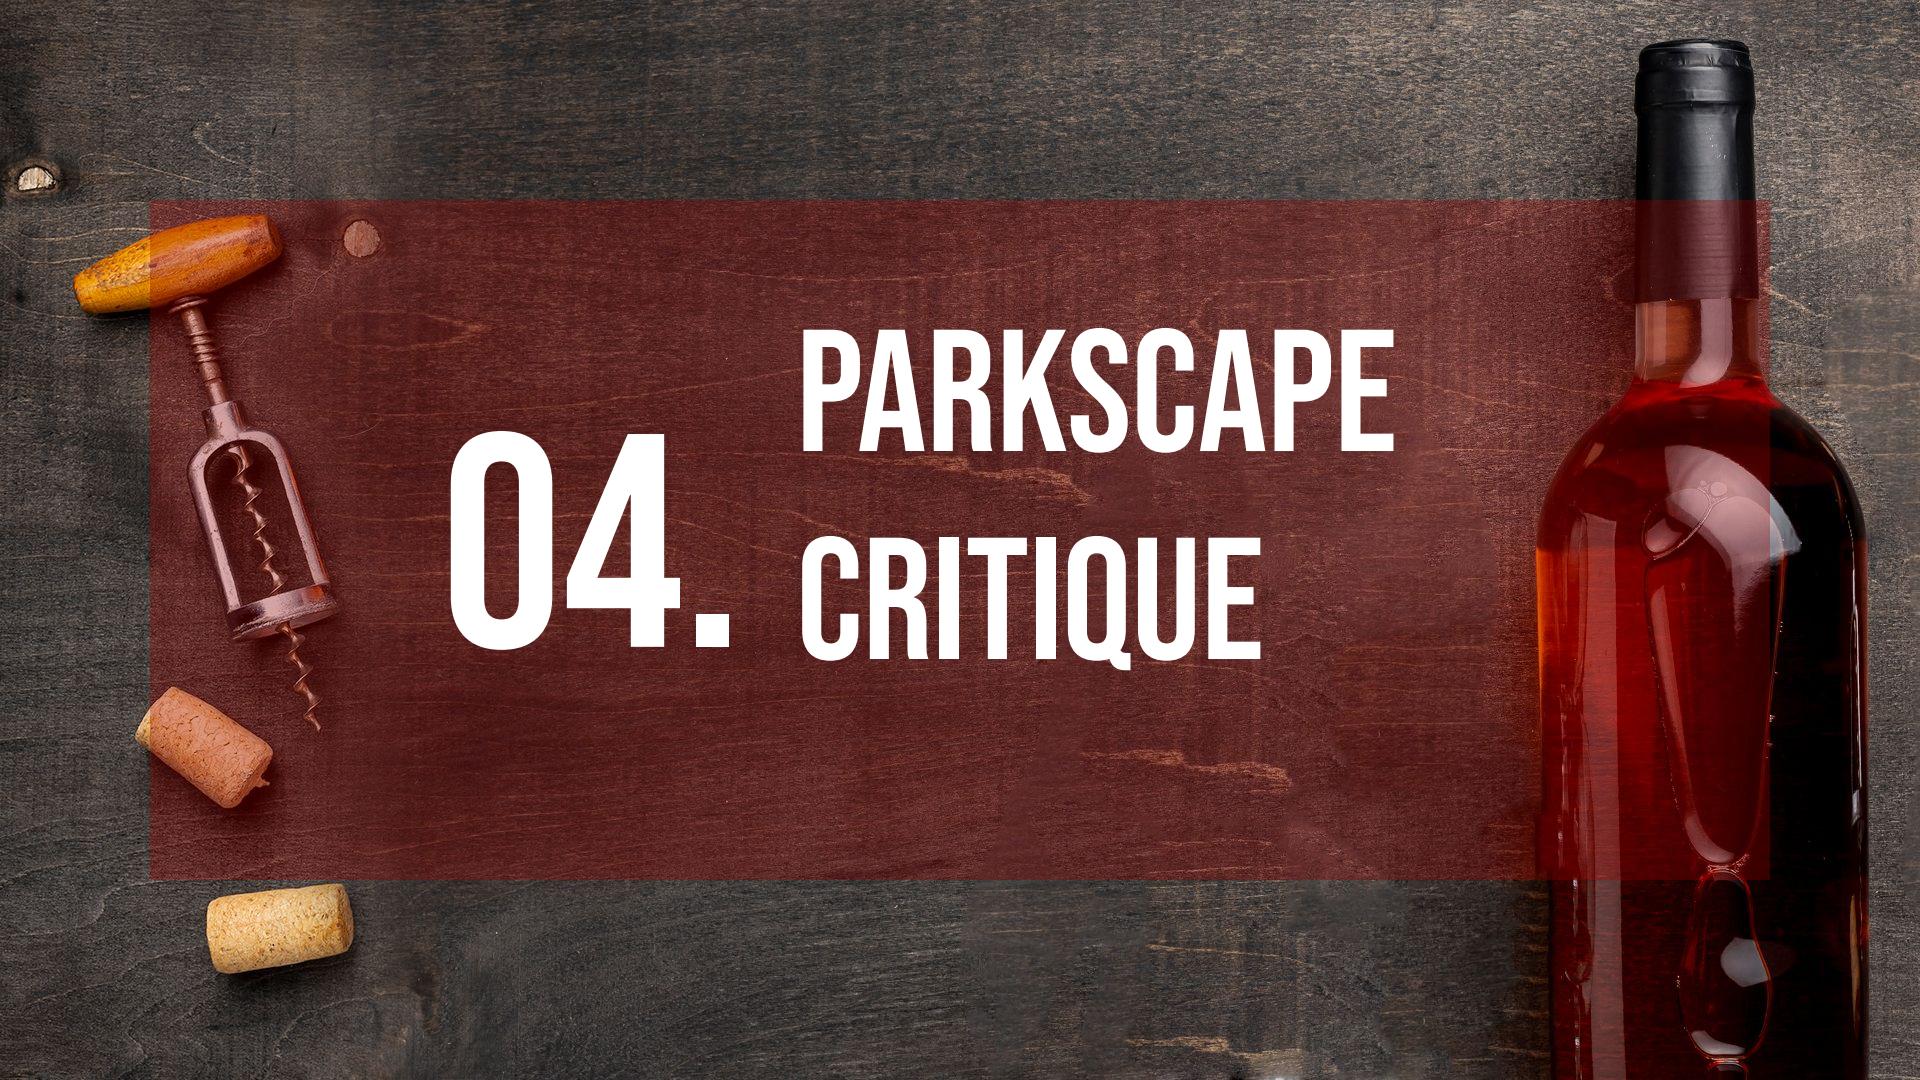

PEER REVIEWS

Provided constructive feedback

PUZZLED

Finding more API data sources relating to wine

The background features a dark, textured wooden surface. In the top left corner, there is a red rectangular overlay. On the left side of this overlay, a silver corkscrew with a wooden handle lies diagonally. A few wine corks are scattered on the surface: one yellow cork is at the top left, one orange cork is near the center, and two smaller, lighter-colored corks are at the bottom left. A large, clear bottle of red wine stands vertically on the right side of the overlay.

OTHER CRITIQUE

01

SUCCESS

Provided relevant data
on parks, cities, and
airports

02

LEARN

More than just national
parks exist

03

USER STORIES

Implemented 8/15 user
stories with high quality

4. OTHER CRITIQUE

GET Parks page

https://api.parkscape.me/parks?page=1&sort=name_asc&states=TX&activities=Astronomy&topics=Animals

Returns a page of park objects.

PARAMS

page

1

Return given page of parks. Each page contains 12 results.

sort

name_asc

Sort list of parks by attribute. Values ending in "_asc" indicate ascending order and
"_desc" indicates descending order. Supported attributes: name, fee

states

TX

Filter parks by state.

activities

Astronomy

Filter parks by activities.

topics

Animals

Filter parks by topics.

REST API

Concise, yet powerful
